Centennial Vineyards - Est 1998

Centennial Vineyards is all about cool climate grape growing and winemaking. The vines ripen with lower temperatures than most Australian wine regions. Because the climate is colder, vines ripen the fruit much more slowly and evenly than in warm regions, producing balanced and aromatic fruit.

Many of our wines are from a "single vineyard", reflecting those unique characters and balance that cannot be made from any other site. We also like to trial alternate varietals (and different clones of these varietal) in a quest to provide a wider range of wine styles to choose from, additionally, we have a larger palette to draw from when creating blends.

Our wine has been acknowledged at wine shows, internationally and nationally, with hundreds of medals from trophy to bronze and we are the only winery in the Southern Highlands to currently hold a ★★★★★ Rating from James Halliday, putting us in the top 7.9% of wineries in Australia.

Bowral – Woodside Vineyard

The cool Bowral vineyard at 760m in altitude (in winter snow is possible) and is greatly influenced by maritime weather patterns and is suited to earlier ripening varietals such as Chardonnay, Pinot Gris, Gewurztraminer, Gruner Veltliner, Albariño, Riesling, Pinot Noir (4 clones), Pinot Meunier and Tempranillo. Of particular importance are the traditional Champagne varieties – Pinot Noir, Chardonnay, and Pinot Meunier. These perform admirably allowing us to make a broad range of sparkling wines which have become very well respected within the industry.

Orange – Bridge Creek Vineyard

Our Bridge Creek vineyard is located in the sunnier and warmer Orange region at 850m in altitude and west-facing for good afternoon sun exposure. Dry, continental weather patterns allow us to fully ripen mid-late ripening varietals. We have old vine plantings of high-quality Cabernet Sauvignon and Merlot, exciting new plantings of the very rare Mencia, Rondinella & Corvina, and Pinot Noir (Abel clone), Shiraz and Viognier. The vineyard is farmed sustainably and is in the process of gaining organic certification.
